Re: Docket No. OOP-1211/CP1
and Docket No. 99N-4282

Dear Commissioner Henney,

I am writing to you because I want genetically altered foods tested and labeled. As a consumer, I have the right to know what goes into my body. Not only is it my right to know as a consumer, but there are also environmental, food safety, and ethical issues involved with the subject of genetically engineered foods.

All genetically engineered foods should be removed from the marketplace, unless the FDA requires mandatory testing of all genetically engineered foods, as well as labeling.

Thank you.
Sincerely,

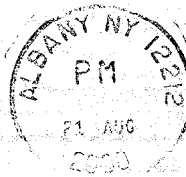

Elaine Doremus
